# STAR TREK®

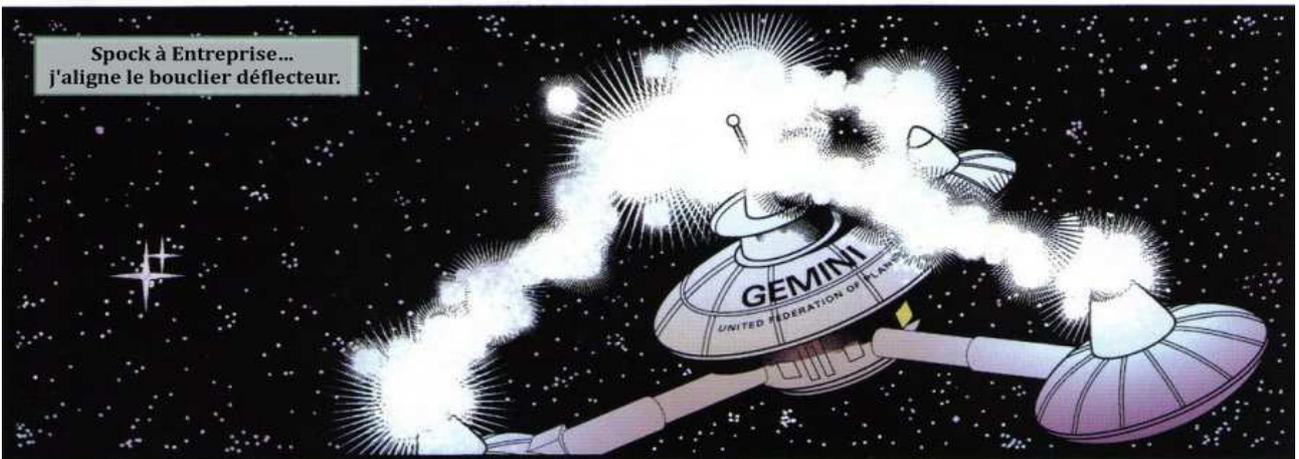

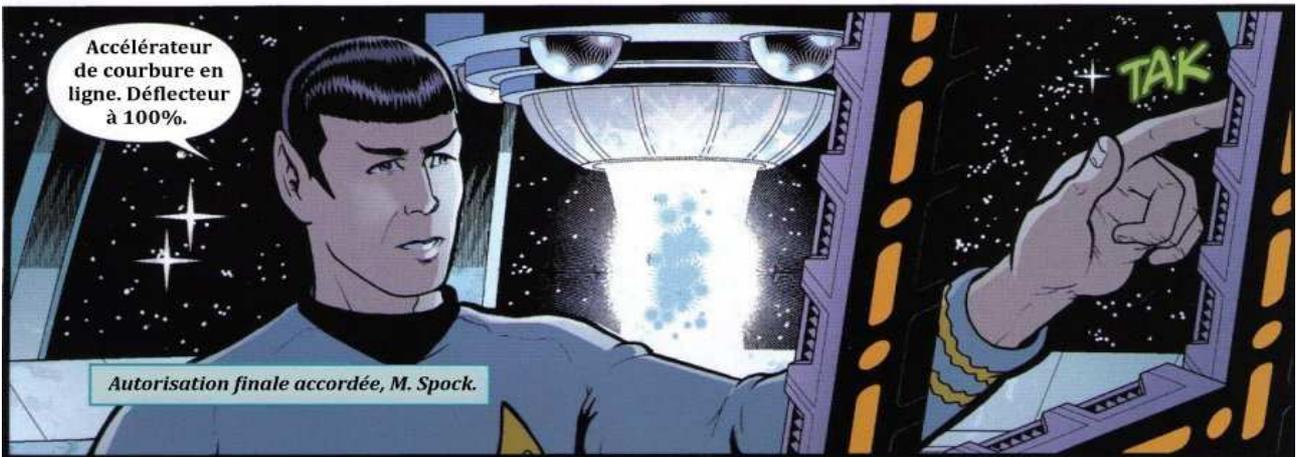

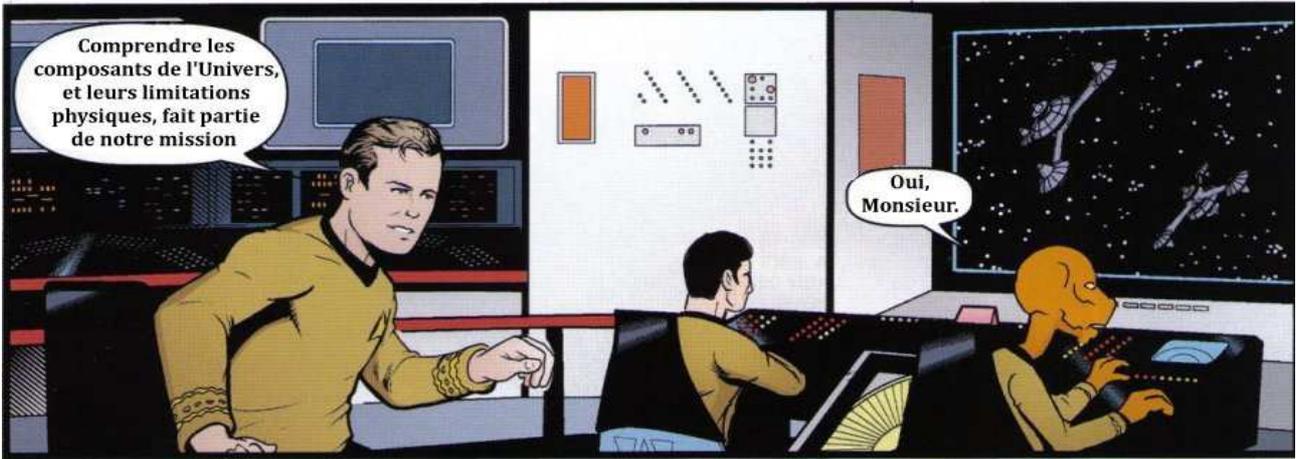

Y E A R F O U R

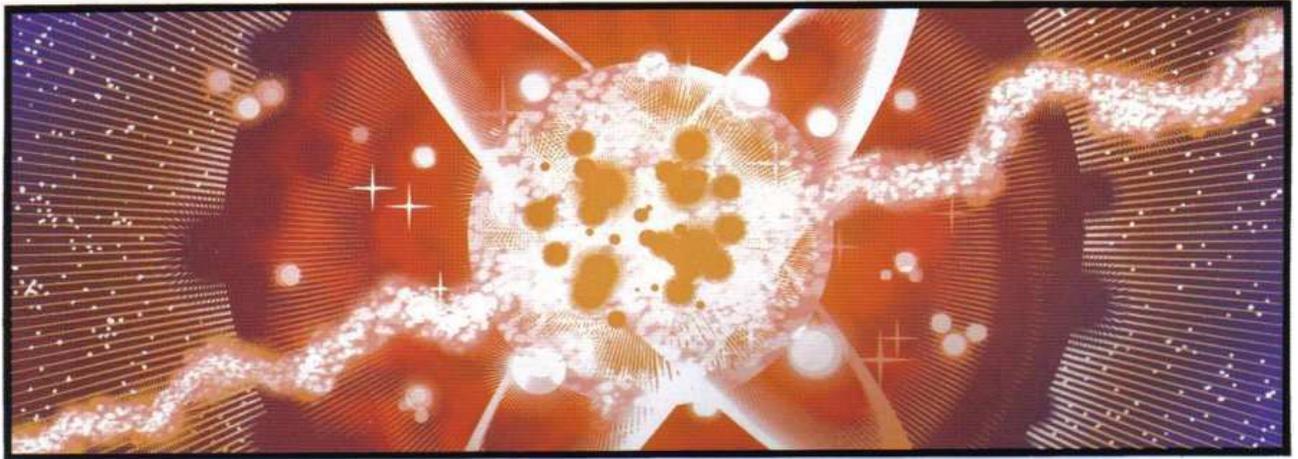

Version  
Française

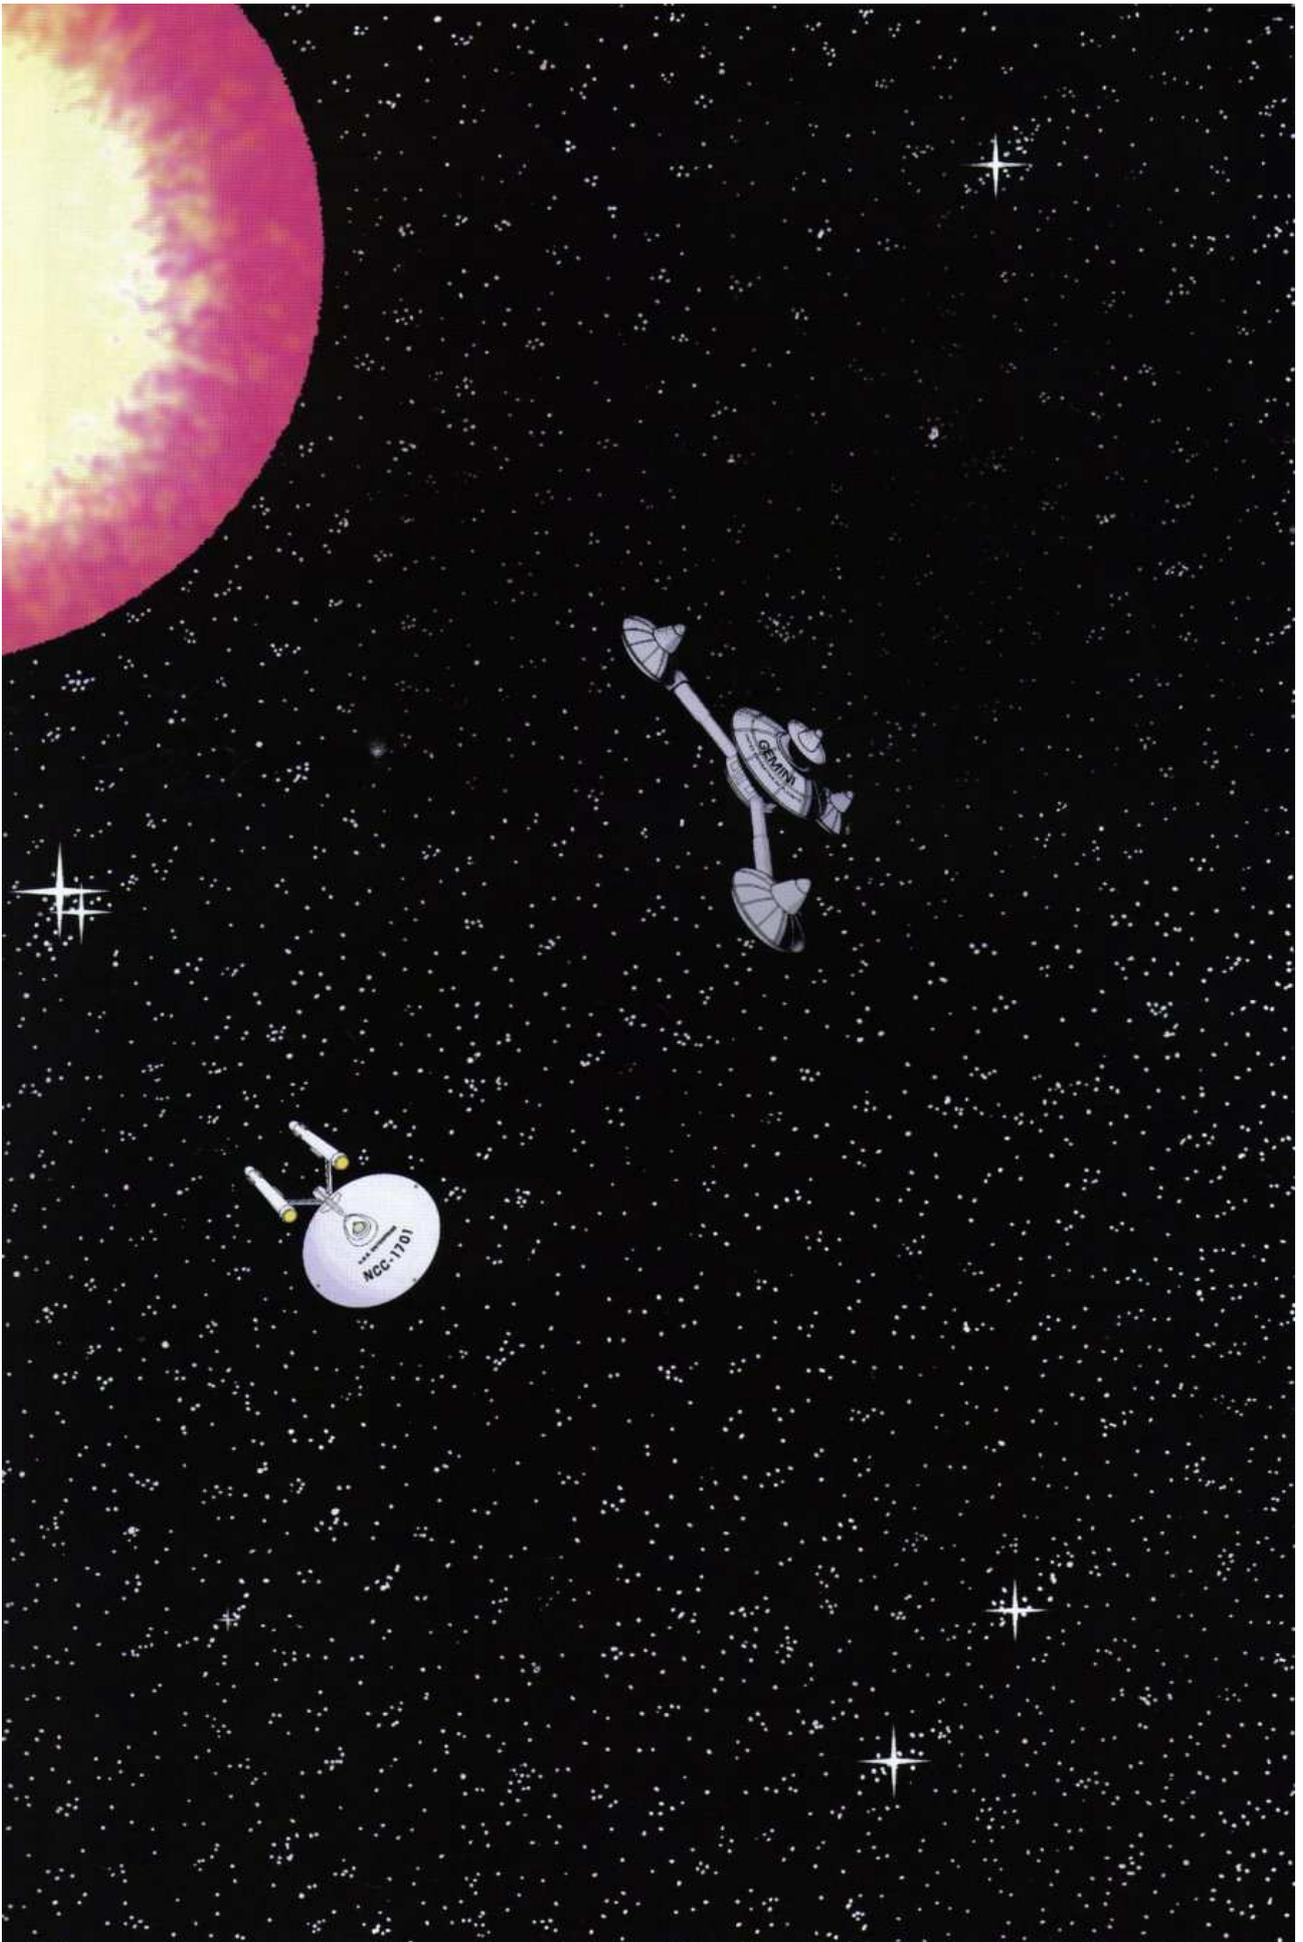

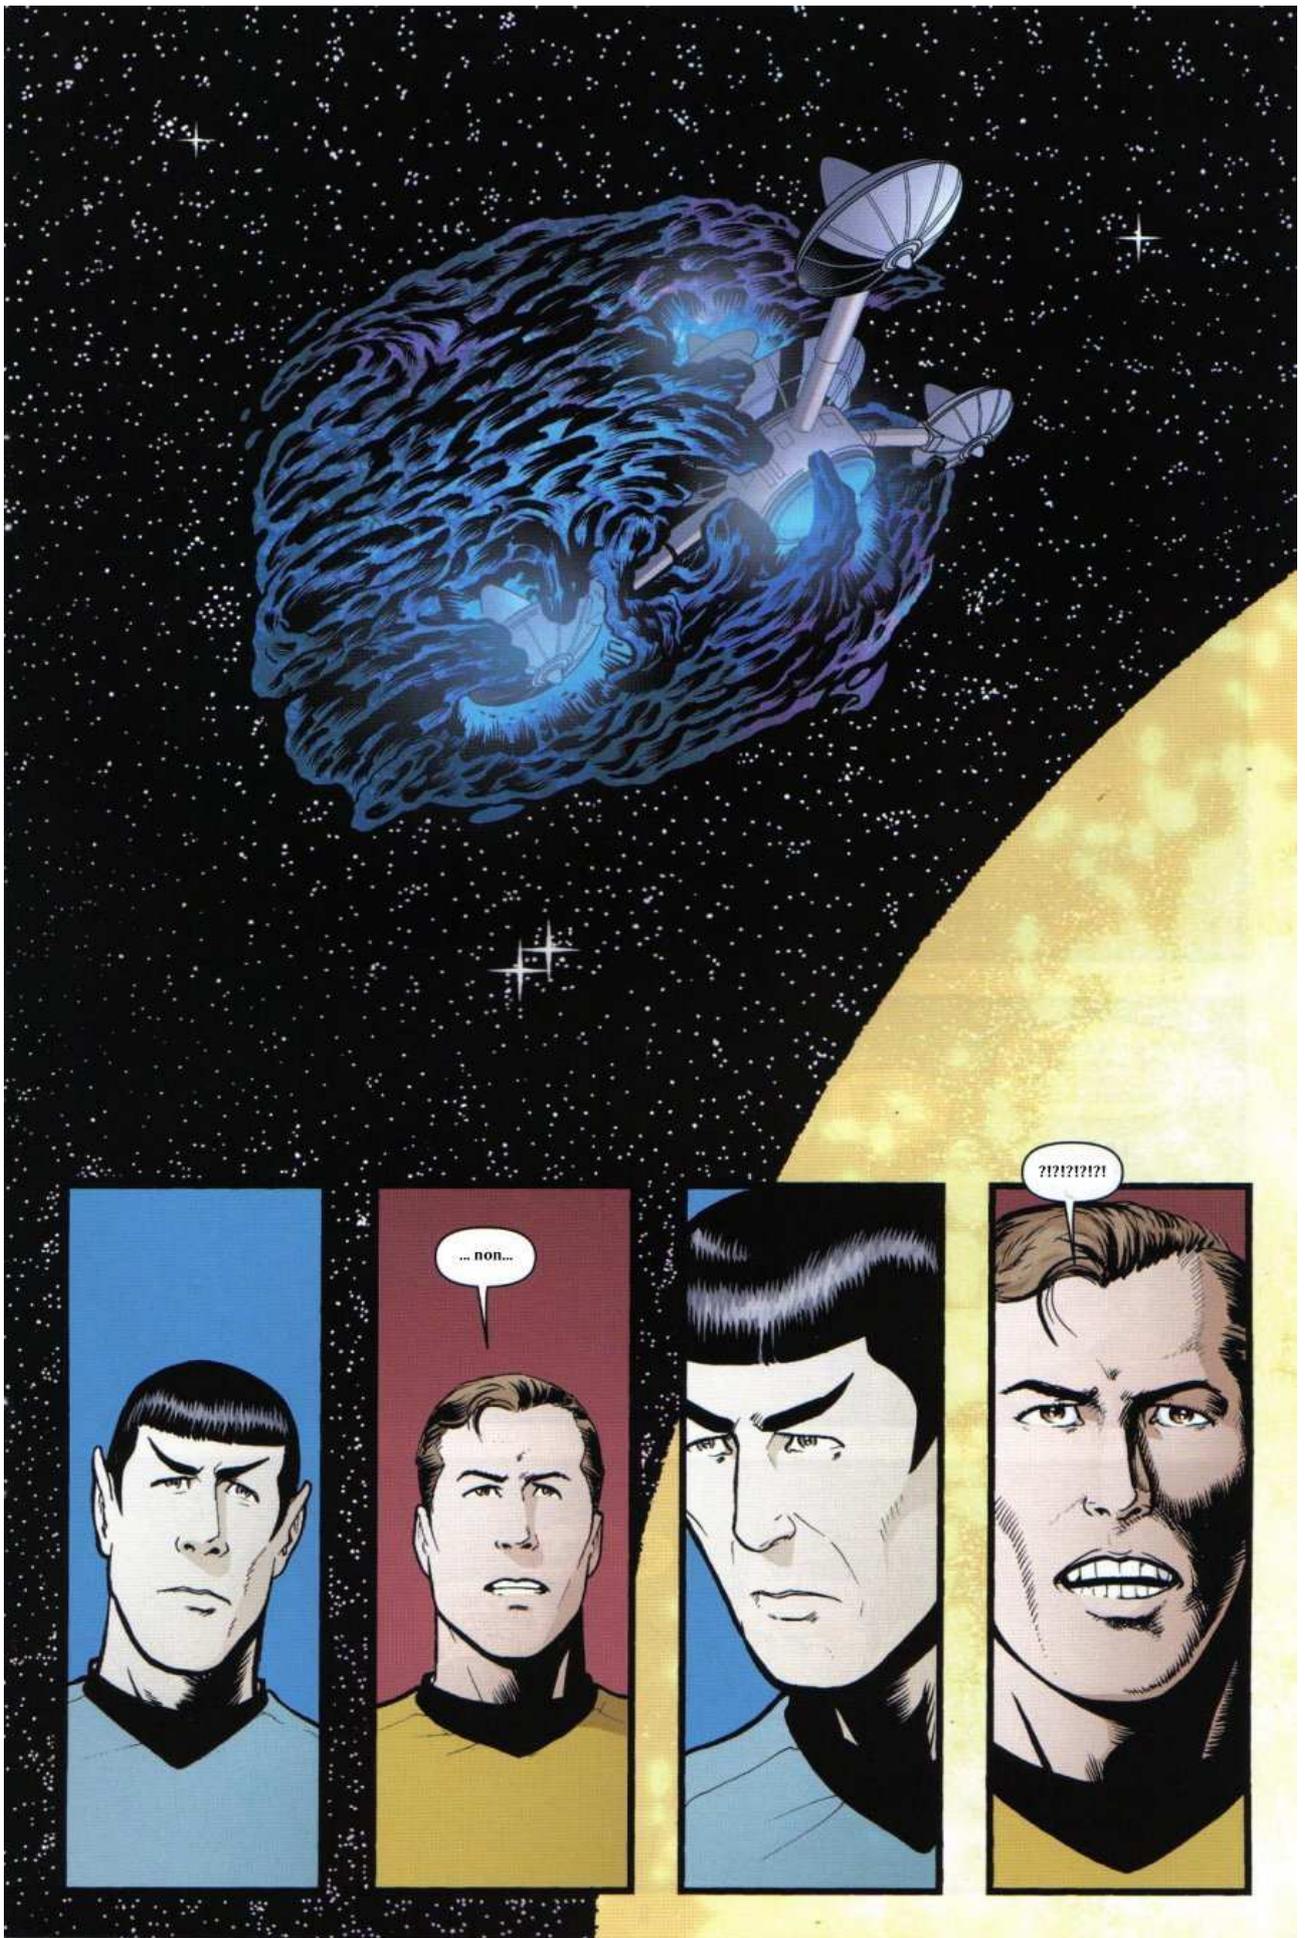

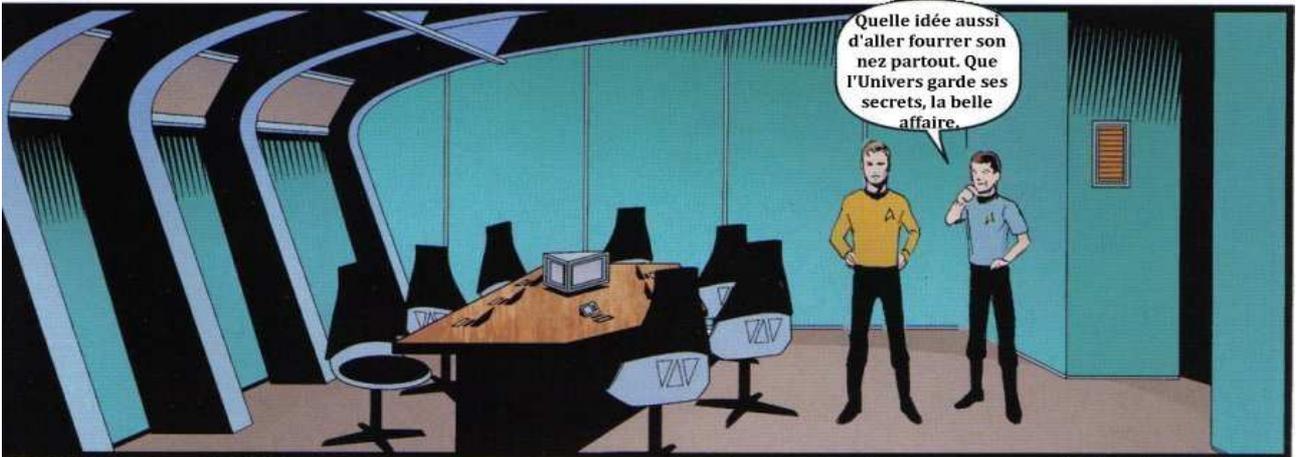

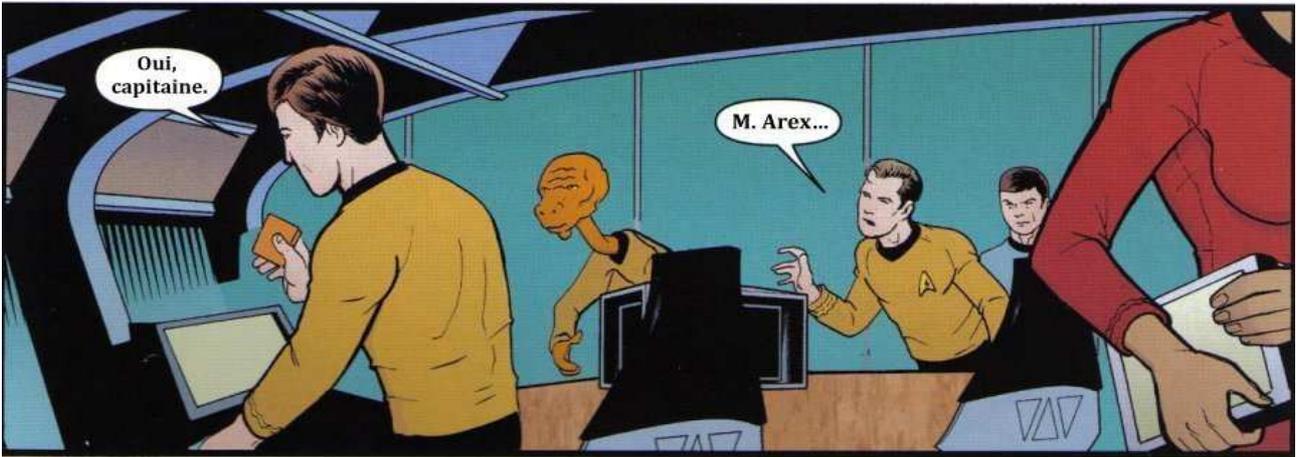

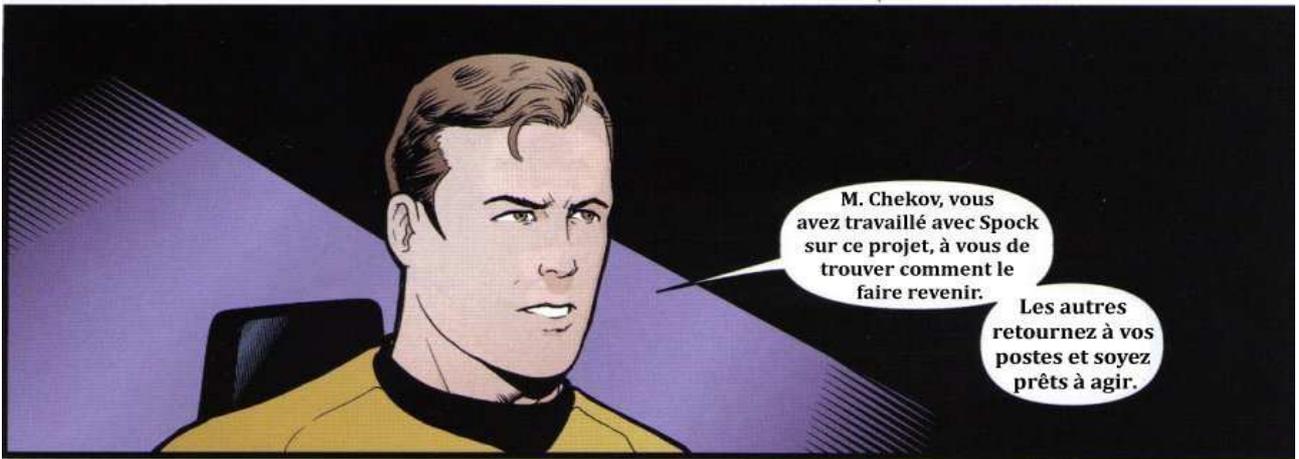

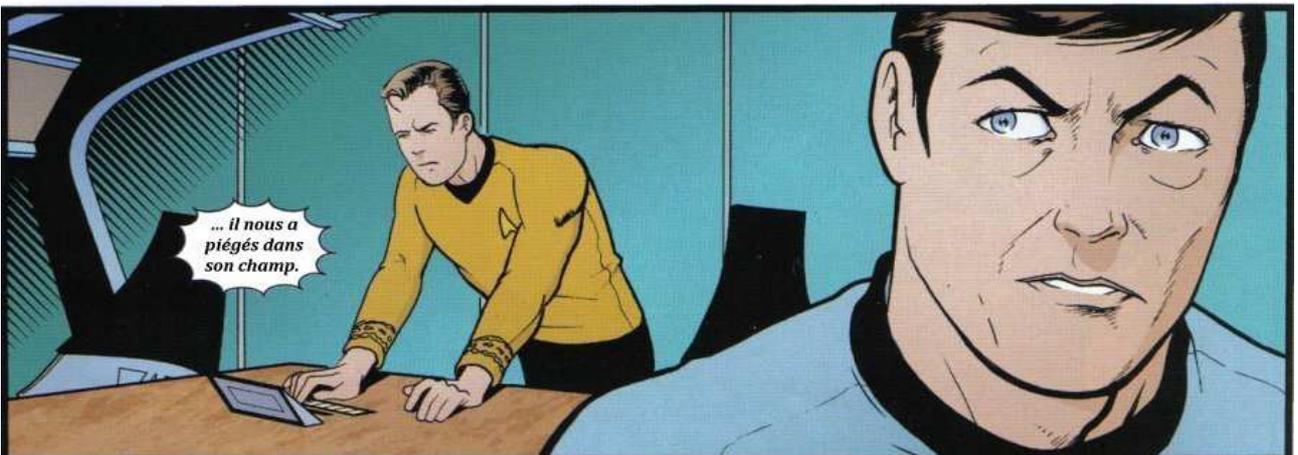

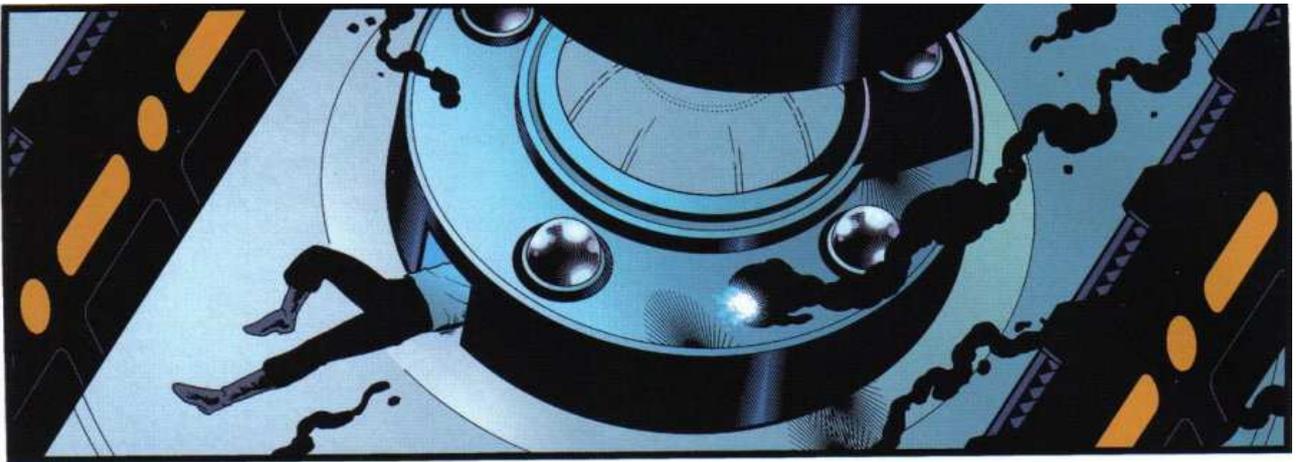

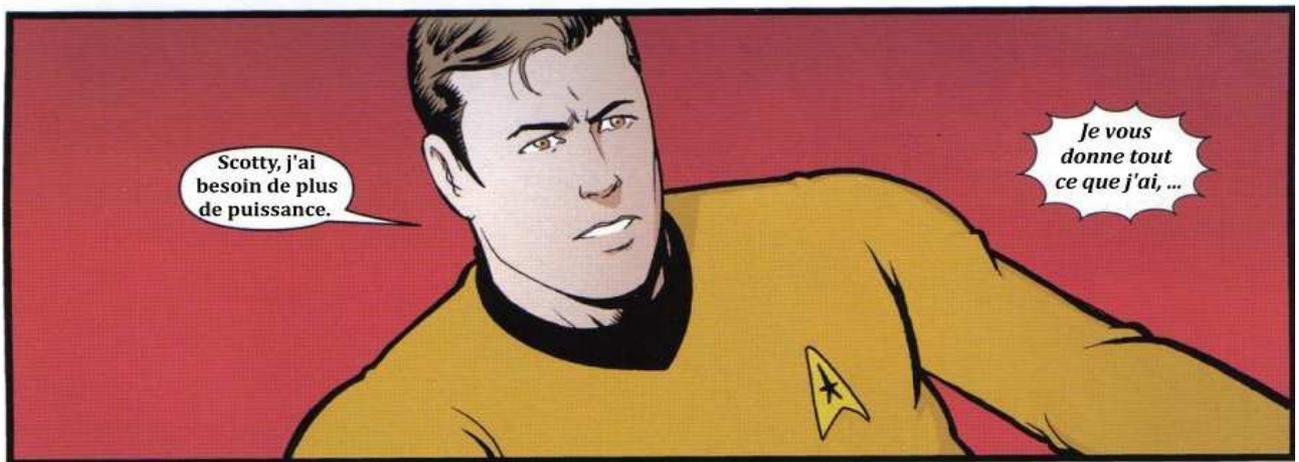

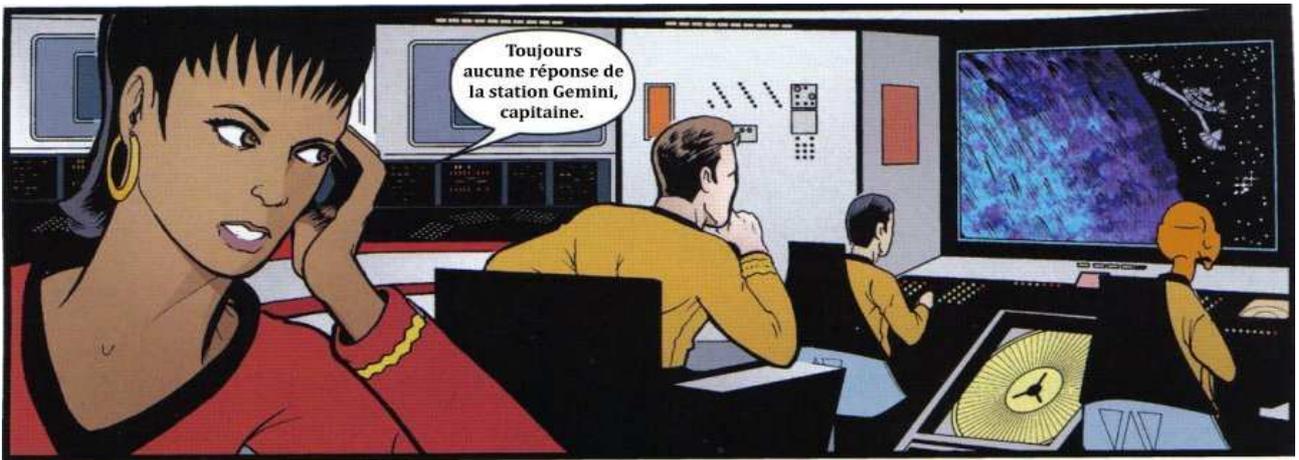

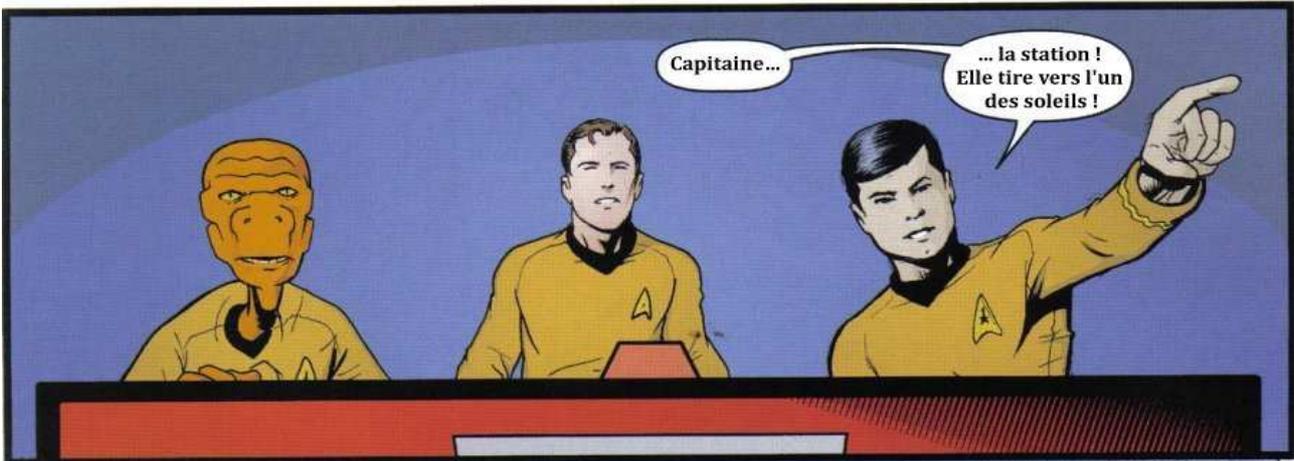

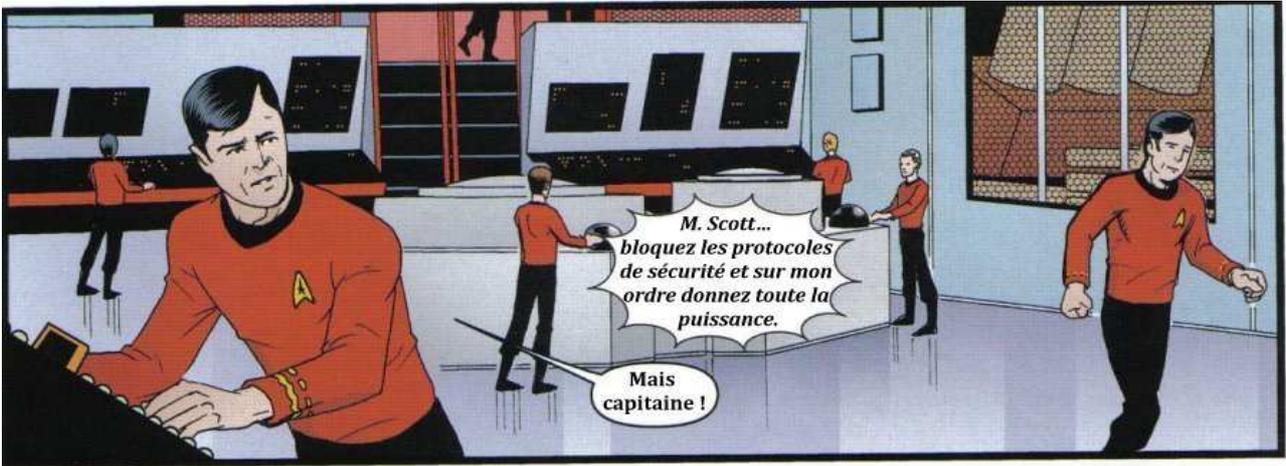

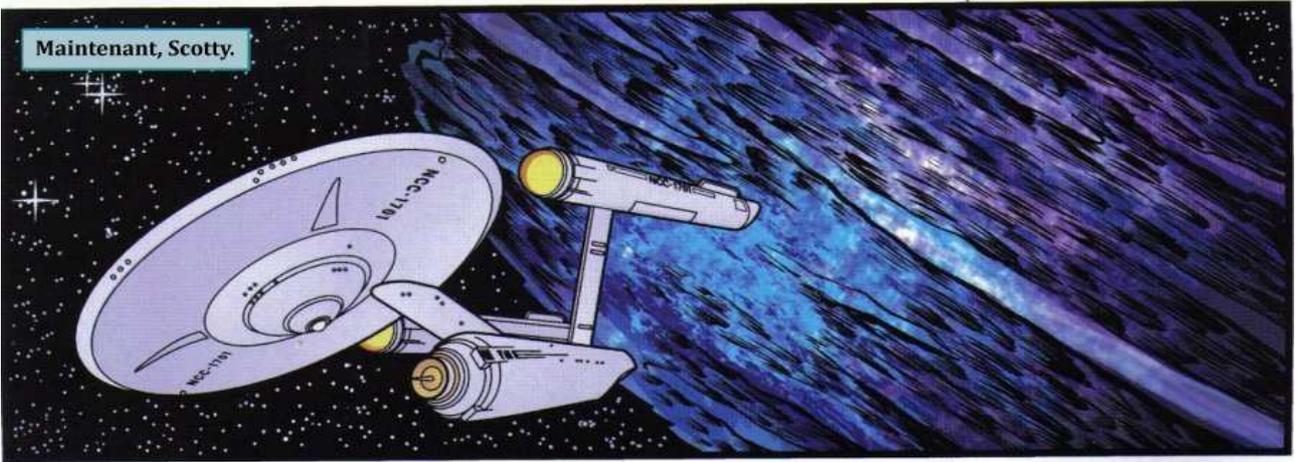

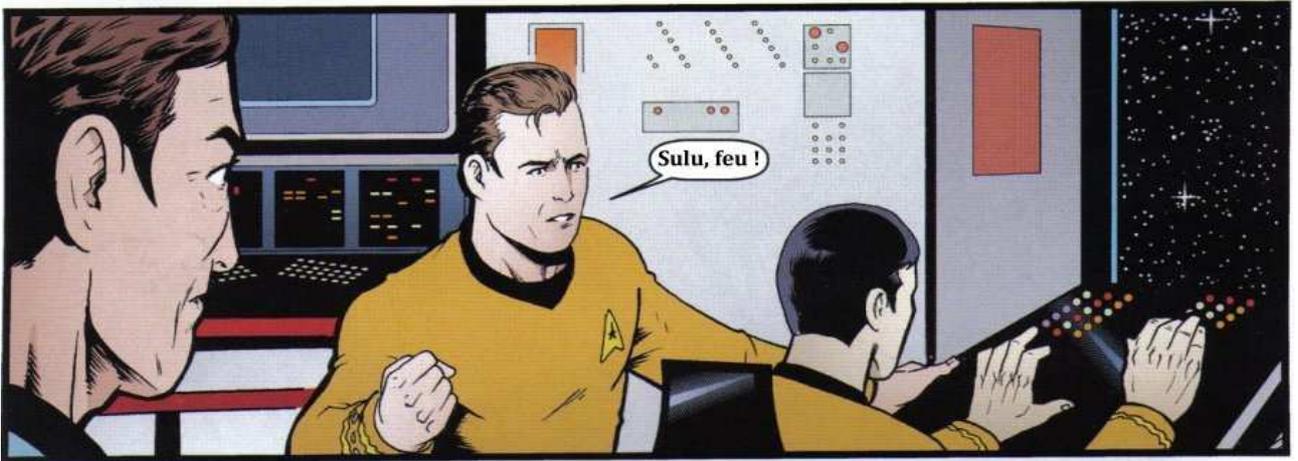

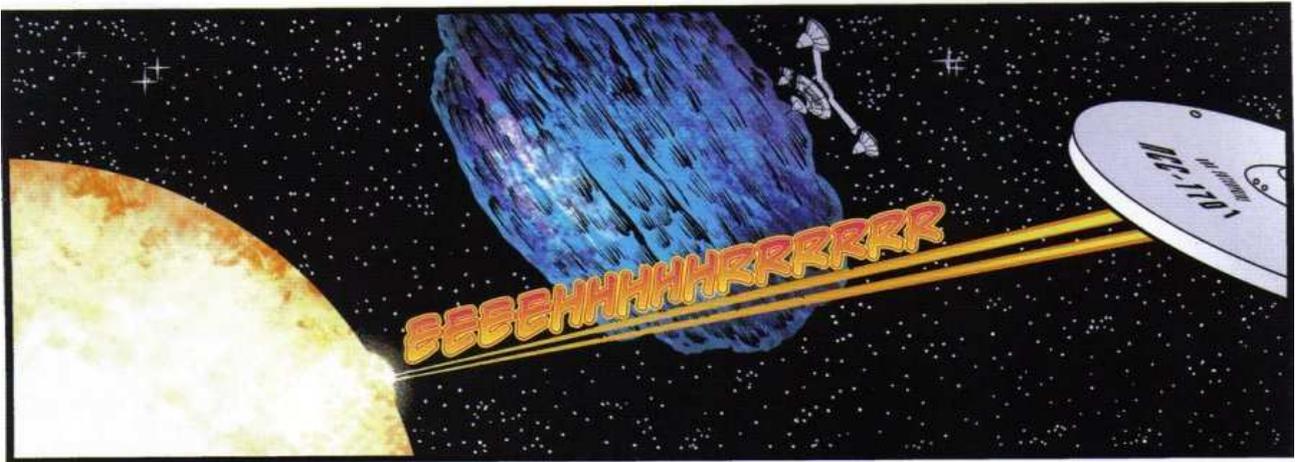

Maintenant, Scotty.

Sulu, feu !

EEEEHHHHRRRRR

Capitaine ! La station !

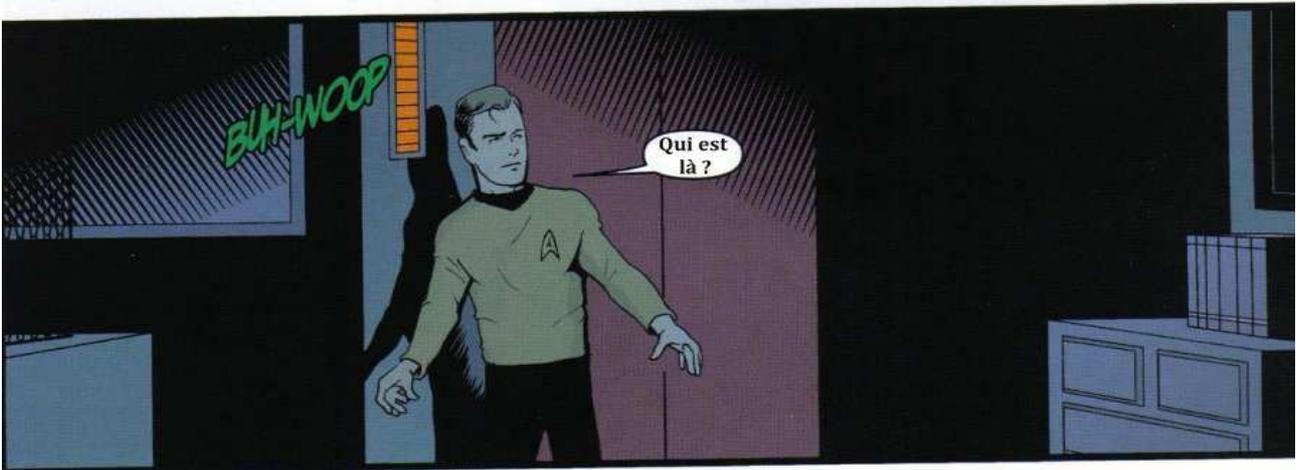

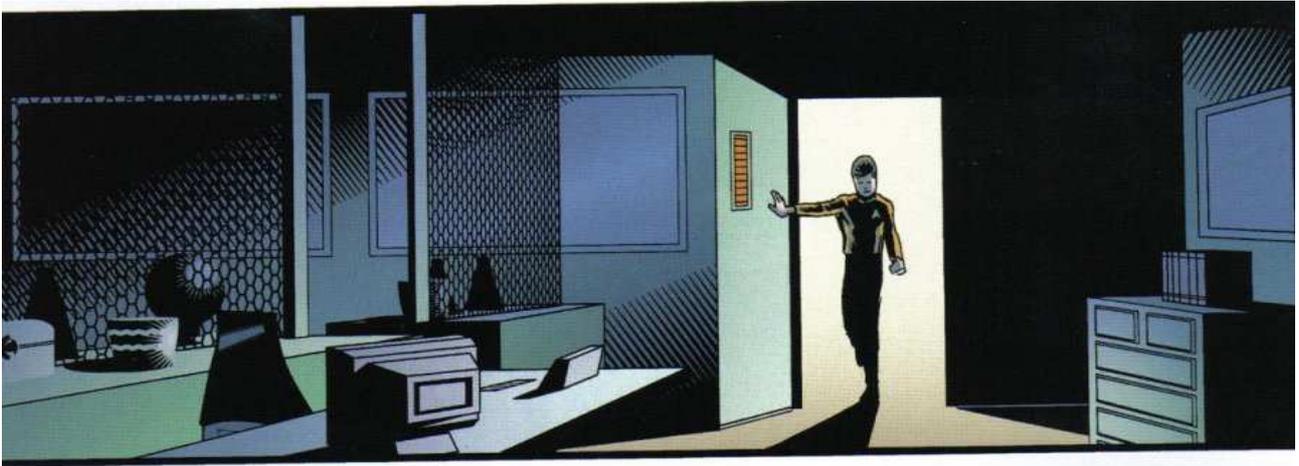

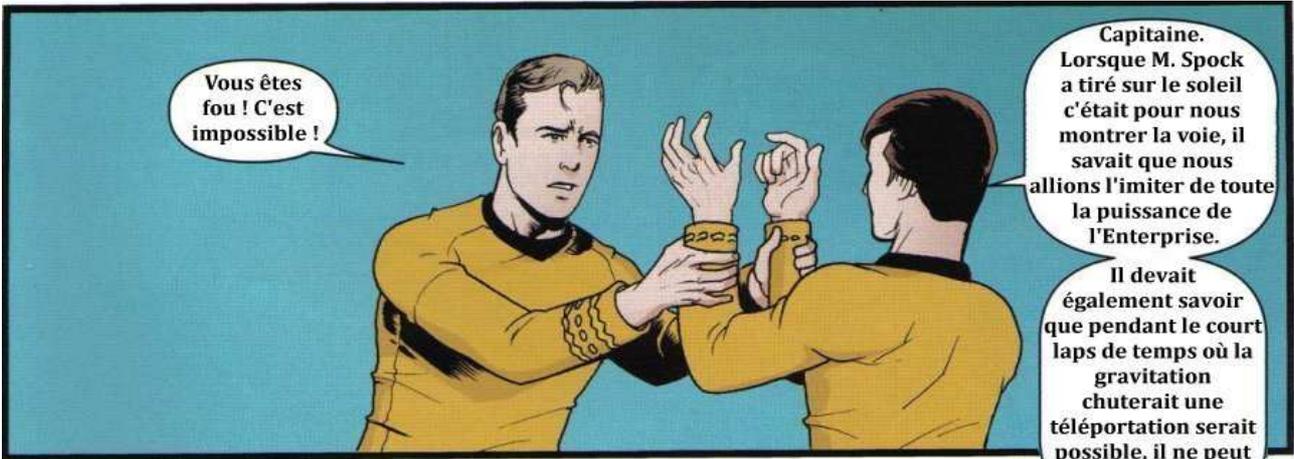

Je vois  
M. Sulu.

USS ENTERPRISE  
NCC-1701

Vous êtes fou ! C'est impossible !

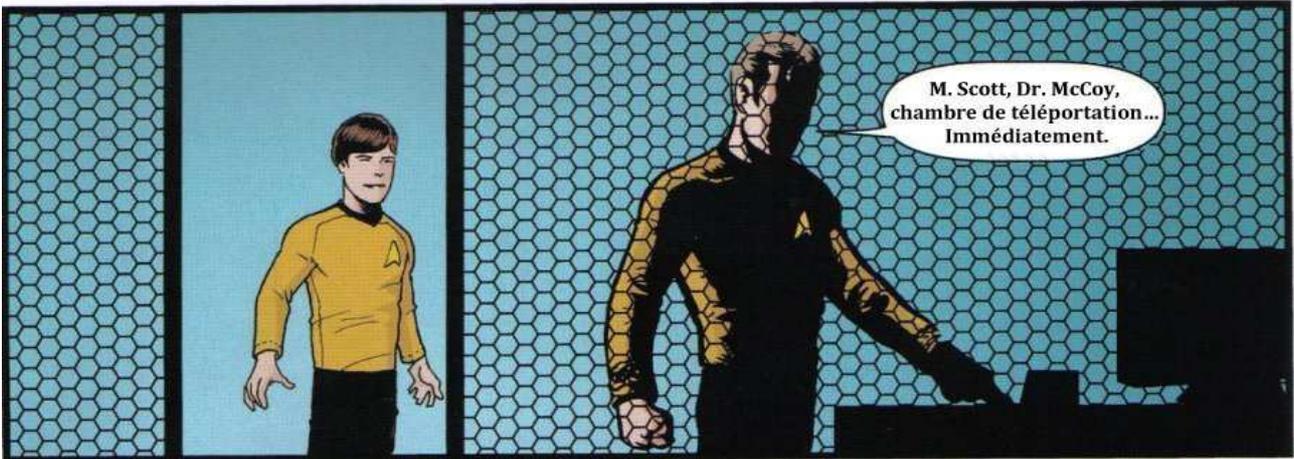

Capitaine. Lorsque M. Spock a tiré sur le soleil c'était pour nous montrer la voie, il savait que nous allions l'imiter de toute la puissance de l'Enterprise.

Il devait également savoir que pendant le court laps de temps où la gravitation chuterait une téléportation serait possible, il ne peut pas ne pas avoir essayé.

En admettant que Spock ait tenté de se téléporter nous l'aurions détecté. Même si cela avait échoué.

Capitaine, en plus de l'intense champ gravitationnel le nuage a également créé une distorsion temporelle. Si M. Spock s'est téléporté il n'est peut-être pas encore arrivé tout simplement.

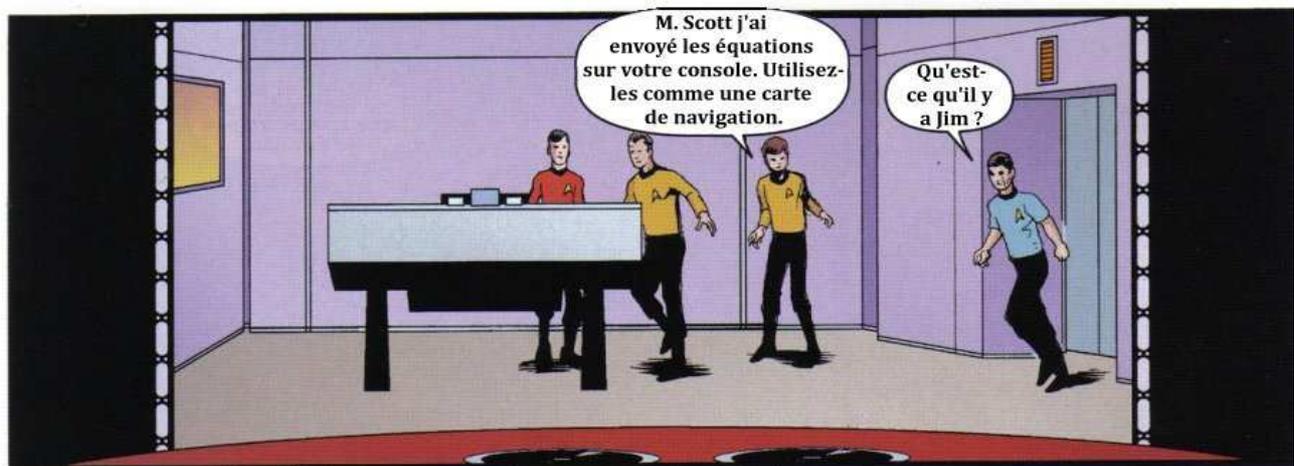

M. Scott, Dr. McCoy, chambre de téléportation... Immédiatement.

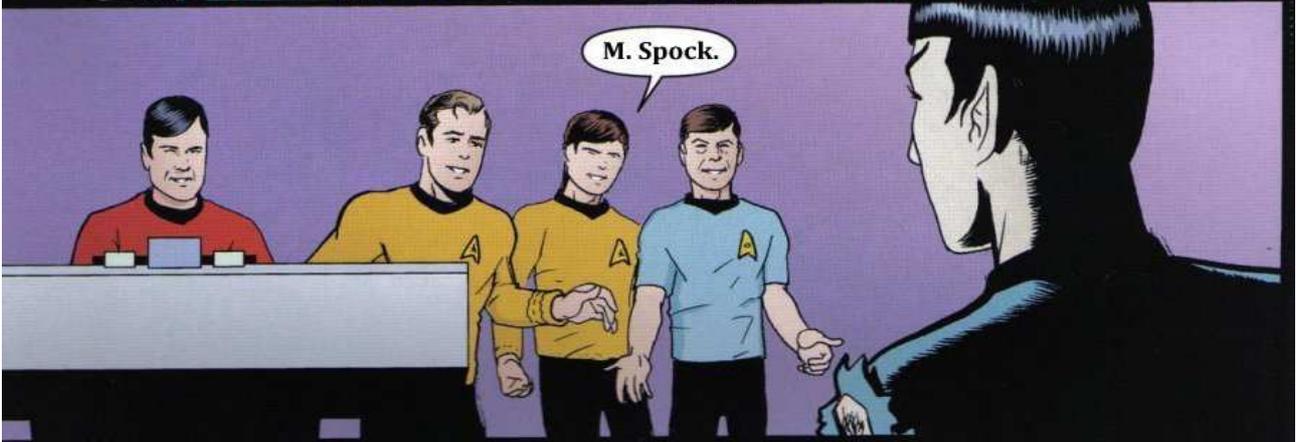

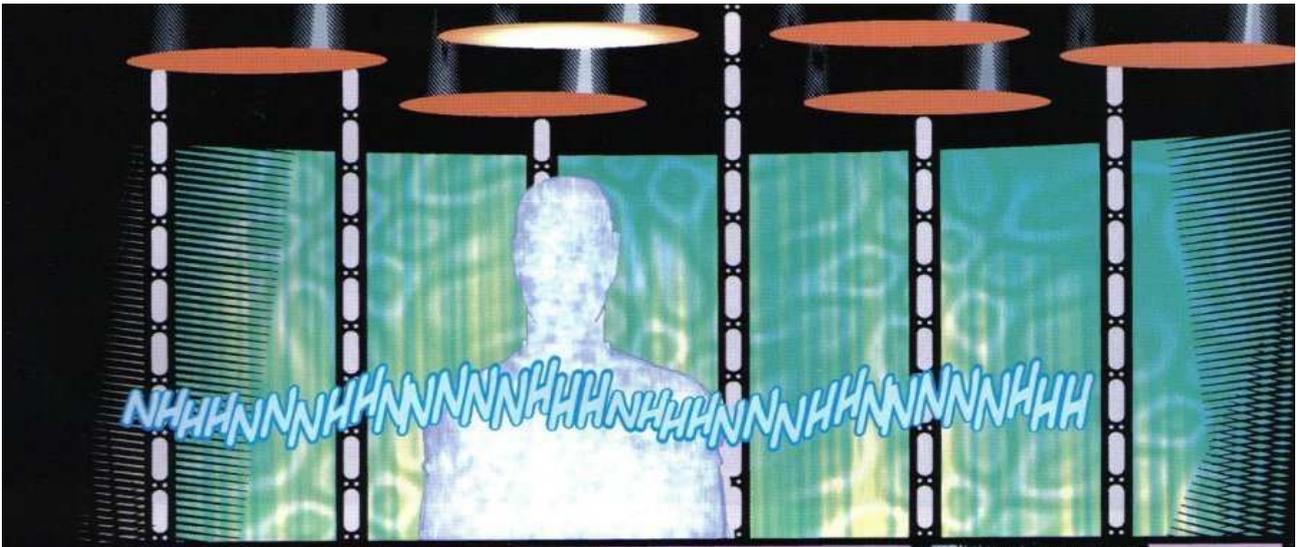

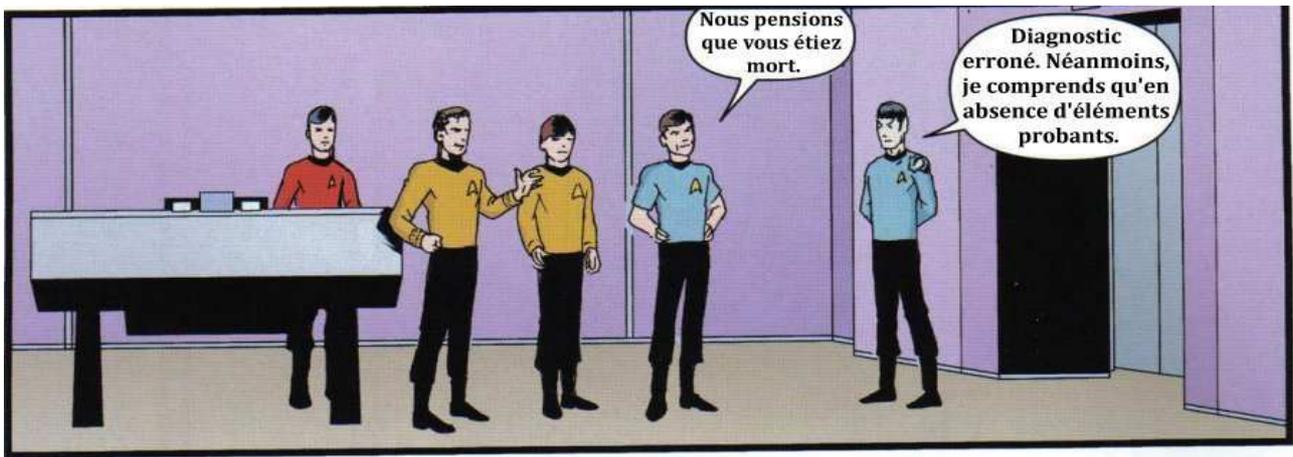

M. Chekov, êtes-vous au fait des équations relatives à l'espace-temps ?

Instruit par M. Spock lui-même.

Il me l'a également proposé. Heureusement que vous, vous avez accepté.
